

HACKER ATTACK AGAINST THE LAZIO REGION GPI GROUP SOFTWARE SYSTEMS INTACT

Trento, 4 August 2021

The **Gpi Group** reports that the attack on the technological infrastructure (Server Farm) of the Lazio Region has not affected the Gpi software systems involved in reserving Covid vaccines and other bookings handled by Gpi (Contact Center and Front End activities).

As a precaution, these systems have been switched off, in order to facilitate the securing and rebooting of the server farm. The GPI operators of the Contact Center and Front End service are operating managing reservations (excluding the vaccine service) with alternative systems to those temporarily suspended.

GPI GROUP

GPI is the preferred partner for software, technologies and services for healthcare, social services and the public administration. Founded more than 30 years ago in Trento, GPI has grown through significant investments in M&A (in Italy and abroad) and R&D, which it carries out in partnership with leading Italian research centres and universities to share scientific, technological, functional and process knowledge applied to the e-health, e-welfare, well-being sectors.

Also drawing on the solutions and know-how gained from the companies that have joined its ecosystem, the Group has masterfully translated the needs of the healthcare industry into cutting-edge high-tech solutions and new service models that optimise prevention, diagnosis and care processes, improving people's lives.

The offer combines specialised IT expertise with advisory and design capabilities enabling it to operate in a range of business areas: Software, Care, Automation, ICT and Payment services.

The Company reported consolidated revenues of €271 million in 2020, with over 6,100 employees at year end and more than 2,400 customers in over 60 countries.

GPI was listed on Borsa Italiana in 2016 (AIM segment) and moved to the MTA market in 2018.
