

## TELEMEDICINE SOFTWARE GPI WINS FRIULI VENEZIA GIULIA CONTRACT

### European MDR certification for medical devices obtained

Trento, 6 March 2023

**GPI S.p.A. (GPI:IM)**, a leading provider of information systems and services for health and social care listed on the EXM market, announces that the consortium it leads has been awarded the contract to implement **Telemedicine** processes in **Friuli Venezia Giulia**.

The four-year contract is worth about **€ 2.1** million (GPI's share is around €1 million) and calls for the delivery of a telemedicine software platform capable of meeting the citizens' care and treatment needs, involving doctors and other healthcare personnel throughout the Friuli Venezia Giulia Region. The **Telemedicine Platform (TP)** will include teleexamination, teleconsultation, health telecooperation, telemonitoring, telehealth, telerehabilitation and teleassistance.

The contract awarded by the Friuli Venezia Giulia Region is part of the restricted tender procedure envisaged **by the Consip Framework Agreement** on "*Digital health - clinical and healthcare information systems*" (total funding of € 900 million, of which € 414 million dedicated to Telemedicine - see GPI press releases dated [25/11/2021](#) and [26/04/2022](#)) and will utilise the resources provided in Mission 6 Health of the National Recovery and Resilience Plan (NRPP).

Related services that will be provided during the term of the contract include the installation, configuration, testing and commissioning of the TP; the design and implementation of integrations of the TP with all Health Service systems; and training, support and maintenance.

In fact, through the digitalisation of processes and the personalisation of patient management and treatment processes according to individual healthcare needs and the varying care contexts, the TP helps make **the healthcare system sustainable**, as envisaged in the NRPP.

Recently, Gpi's Telemedicine Platform, **POHEMA**, obtained the important **MDR 745/2017** certification. This is the Medical Device Regulation, the mandatory European regulation on all medical devices, effective from May 2021. Gpi's is one of the first software in Italy, by sector, to receive this type of certification.

## GPI GROUP

GPI is the preferred partner for software, technologies and services for healthcare, social services and the public administration. Founded more than 30 years ago in Trento, GPI has grown through significant investments in M&A (in Italy and abroad) and R&D, which it carries out in partnership with leading Italian research centres and universities to share scientific, technological, functional and process knowledge applied to the e-health, e-welfare, well-being sectors.

Also drawing on the solutions and know-how gained from the companies that have joined its ecosystem, the Group has masterfully translated the needs of the healthcare industry into cutting-edge high-tech solutions and new service models that optimise prevention, diagnosis and care processes, improving people's lives.

The offer combines specialised IT expertise with advisory and design capabilities enabling it to operate in a range of business areas: Software, Care, Automation, ICT and Payment services.

The Company reported consolidated revenues of €326.9 million in 2021, with over 7,200 employees at year end and more than 2,700 customers in over 70 countries.

GPI was listed on Borsa Italiana in 2016 (AIM segment) and moved to the MTA (now EXM) market in 2018.

ISIN ordinary shares: IT0005221517
