PRESS RELEASE

PHARMACEUTICAL LOGISTICS, FIRST SWEDISH CLIENT FOR GPI RIEDL PHASYS

Trento, 31 October 2023

The international growth of **Gpi Group** continues to prosper. In the third quarter of 2023, the company secured significant contracts, particularly in the sector of pharmaceutical logistics automation. For the first time, Gpi makes a landmark entry into **Sweden**, winning a tender for the supply of an automated Riedl Phasys warehouse to the prestigious **Uppsala University Hospital**, the oldest university hospital in the Scandinavian country, for a value exceeding 400,000 euros. This includes an agreement for the maintenance of the structure for ten years.

During the same period, other contracts have been signed for automated Riedl warehouse with entities in Spain, Germany, Switzerland, and Japan, with a total value exceeding one million euros. Riedl Phasys is a technology based on a bidirectional grip group that moves at a speed of 5 meters per second, standing out as one of the top products on the international market.

This overseas expansion fits organically into Gpi Group's strategy, which has acquired significant companies such as Evolucare (France and Germany), and Tesi (Mexico and Brazil) in recent months.
