

ENTERPRISE IMAGING AND ELECTRONIC MEDICAL RECORDS GPI A WINNER OF THE FOURTH CONSIP TENDER

Trento, 9 January 2024

The temporary consortium led by **Gpi SpA** is one of the winners of all four application lots of the tender held by Consip, concerning the Framework Agreement "*Digital Health - Clinical and healthcare information systems 2*". This award is final.

As the successful bidder in the fourth tender held by Consip¹ as well, the Gpi Group confirms its role as a reference partner for National Health Service digitalisation and more generally for "Mission 6 - Health" of the National Recovery and Resilience Plan (NRRP), which is fundamental to achieve sustainability in the Italian Healthcare System.

The lots aim to structure an **effective management of health data** capable of improving care and making it more accessible in a uniform manner throughout the country. There are two main software and technology solutions: Electronic Medical Records and Enterprise Imaging. A business environment that looks decidedly favourable for Gpi: the company will be able to offer solid expertise gained in the national and international arena, which in this tender was confirmed by the fact that Gpi obtained the highest technical score in two out of four lots.

In economic terms, the maximum value of the four application lots awarded, including a possible 20% extension, is € 960 million.

More specifically, the temporary consortium led by Gpi, which came third, will be able to benefit from a 6% share of direct awards and may participate, with its high technical score already obtained, in competitive tenders with the other successful bidders for a maximum share of 70% of the limit of each lot. For the four lots, the Gpi Group's share within the temporary consortium varies from 31% to 41%.

The Framework Agreement will have a term of 24 months, with a possible extension up to 12 months. **The individual executive contracts will have a maximum term of 48 months** from the relative signing date.

¹ The Gpi Group was awarded all three previous framework agreements from the Consip tenders for "Digital Healthcare", see Gpi press releases dated 25/11/2021; 20/7/2022; 6/11/2023.

GPI GROUP

Gpi's mission is to make the healthcare systems sustainable through their digitisation, so that everyone can receive high-quality care.

Sustainability and social impact are the guiding principles and play a crucial role in the strategic and investment assessments of the Group, aware that the solutions and services provided to the community have an impact on the quality of life of individuals.

For 35 years, driven by a patient-centric vision, Gpi has been working to support healthcare systems by providing the skills and innovative tools necessary to improve prevention and treatment processes. This is achieved through the strategic use of advanced software, technologies, and cutting-edge services.

The Group's strategy is designed to meet the evolving requirements of the constantly changing healthcare sector and to facilitate entry into international markets.

The unwavering commitment of its 7,000 employees and a customer base of more than 3,000 across 70 countries, yielded €360 million in revenue, an EBITDA of €54 million in 2022.

Gpi S.p.A. is listed on the Euronext Tech Leaders segment of Borsa Italiana, the Italian stock exchange.
