PRESS RELEASE

## DIGITAL SECURITY OF THE PUBLIC ADMINISTRATION: GPI'S CYBERDEFENCE SERVICES FOR THE EMILIA ROMAGNA REGION

Trento, 15 February 2024

The temporary consortium led with telecommunications operator Fastweb as the lead company and **Gpi Cyberdefence**, a Gpi Group company, among the participants, has been awarded lot 2 of the tender held by the Emilia-Romagna Region's Agency for the Development of Remote Markets for the acquisition of IT system management and IT security services. The total amount of the tender is €40 mln over 36 months.

**Gpi Cyberdefence's share is about €2.8 mln and includes the supply of:**

- **Vulnerability Assessment and Vulnerability Management:** planning, execution and management of cybersecurity prevention activities.
- **Incident response and Forensics.**
- **Security Advising:** development and planning of diagnostic activities and security audits.

This award is an important achievement for Gpi Cyberdefence, **which will provide cybersecurity services to a technologically advanced region such as Emilia Romagna** – an outcome that consolidates the Group's position as a major partner for the development of digital security systems for public and private organisations. A success in a strategic sector with double-digit growth forecasts, crucial to effective, secure implementation of the public administration's digital transition.

Gpi Cyberdefence is the Gpi Group company specialising in IT security services and technologies. It aims to support the digital security innovation processes of public and private organisations on a strategic and operational level in four areas of activity: highly integrated multidisciplinary consultancy; management of cybersecurity activities; operational and technical cybersecurity services; training for managers and staff.

## GPI GROUP

Gpi's mission is to make the healthcare systems sustainable through their digitisation, so that everyone can receive high-quality care.
