PRESS RELEASE

## INFORMATION SYSTEM FOR BLOOD TRANSFUSION SERVICES GPI WINS THE TENDER FOR THE FRIULI VENEZIA GIULIA REGION

Trento, 3 May 2024

Gpi S.p.A has won the tender for the implementation of the **Integrated Blood Transfusion Information System of the Friuli Venezia Giulia (FVG) Region**, which involves the development of an innovative software solution for managing the entire transfusion process of all healthcare facilities in the region.

The contract, **worth €1.8 million** and lasting 48 months, aims to support all phases of the transfusion process: from blood collection (donation), to its storage and distribution, to the transfusion at the patient's bedside in order to ensure the highest standards of quality, reliability, and safety for patients and healthcare professionals.

Gpi Group, a leader in Italy and among the major players globally in the field of software solutions for blood transfusion services, covers approximately **70% of the Italian market**. In addition to FVG, it manages regional systems in Liguria, Lombardy, Veneto, Umbria, Lazio, Puglia, Calabria, and Sicily, and **boasts over a thousand clients spread across 57 countries, with national projects in Saudi Arabia, Croatia, Estonia, and Greece**.

The contract won, enriched by the valuable partnership with the FVG Region, where the Group's expertise in the sector originated, serves as a laboratory for the future to experiment with cutting-edge solutions to be exported to global markets. This is made possible by the availability of innovative technologies and the historical expertise of an international team of approximately 200 people dedicated to the Gpi4Med.BLOOD suite.

## GPI GROUP

Gpi's mission is to make the healthcare systems sustainable through their digitisation, so that everyone can receive high-quality care.

**Sustainability and social impact** are the guiding principles and play a crucial role in the strategic and investment assessments of the Group, aware that the solutions and services provided to the community have an impact on the quality of life of individuals.

For 35 years, driven by a patient-centric vision, Gpi has been working to support healthcare systems by providing the skills and innovative tools necessary to improve prevention and treatment processes. This is achieved through the strategic use of advanced software, technologies, and cutting-edge services.

The Group's strategy is designed to meet the evolving requirements of the constantly changing healthcare sector and to facilitate entry into international markets.

The unwavering commitment of its 7,600 employees and a customer base of more than 9,000 across 70 countries, yielded €433 million in revenue, an EBITDA of €80 million in 2022.

**Gpi S.p.A.** is listed on the Euronext Tech Leaders segment of Borsa Italiana, the Italian stock exchange.
